

Prof Christopher Pickvance
University of Kent, Canterbury

Dear Professor Horvath,

Thank you for sending me the sad announcement of the death of Gyorgy Enyedi. He was a major figure in Hungarian geography. He organized many publications and was very active internationally. He helped to develop the careers of numerous younger colleagues with some of whom my wife Kati and I were pleased to be able to work during our research on housing and environmental movements and on environmental regulation in Hungary.

I am sure his work will be remembered for many years.

Yours sincerely,

Prof Christopher Pickvance
